1. Tasks Outlined in Previous Weekly Progress Report

- Select the team members and make a project outline
- Gather information required for the proposed project and check the feasibility of it.

2. Progress Made in Reporting Week

- The initial stage of our project to collect information what we required to build, and which technology should be used.
- Technology we are going to use in this is Tableau, Jupyter notebook and in language python.
- Working on Data set what fields to be required in it.

3. Difficulties Encountered in Reporting Week

- The main problem we encountered during this time is to select properly which technique we should use for Data Visualization.

4. Tasks to Be Completed in Next Week

In coming week we will work on Data set and try to import data set in python.
